Thrivent Limited Maturity Bond Fund	THLIX	3.48	4.86	4.86	1.95	2.74	5	

<sup>1</sup>The Adviser has contractually agreed, for a period of one year from the date of the most recent prospectus, to waive certain fees and/or reimburse certain expenses associated with the Fund. If not waived, returns would have been lower. Refer to the Fees & Expenses table in the prospectus.

<sup>2</sup>12-Month Distribution Yield: The sum of a Fund's total trailing dividend distributions for the most recent month, divided by its net asset value or share price at the end of the period, annualized.

<sup>3</sup>30-Day SEC Yield is a standardized yield calculation developed by the Securities and Exchange Commission (SEC). It captures the dividends and interest earned during the period, after the deduction of the Fund's expenses. Data is for the 30-calendar-day period ending the date of this report.

<sup>4</sup>Duration: A measure of a portfolio's sensitivity to changes in interest rates; the longer the portfolio's duration, the more sensitive it is.

<sup>5</sup>Standard Deviation: Measures risk by showing how much a fund fluctuates relative to its average return over a period of time.

<sup>6</sup>Risk tolerances incorporate all aspects of risk, not just standard deviation. For further information, see the Fund Risks Disclosures.

<sup>7</sup>Pending shareholder approval, Thrivent Multidimensional Income Fund will merge into Thrivent Opportunity Income Plus Fund. It was closed to new shareholder accounts May 3, 2024. The shareholder meeting was adjourned and will reconvene on August 1, 2024. See the proxy statement for additional information about the merger.
