¹Performance for 2022 calendar year is 11/1/2022–12/31/2022. ²Gross-of-fees returns reflect the deduction of transaction costs but do not include the deduction of advisory fees or other expenses that may be incurred in the management of an actual account. ³Net-of-fees returns reflect the deduction of a model fee of 3.00% (0.25% applied to the monthly gross returns), which represents the highest anticipated fee that could be charged for accounts utilizing this strategy. This model fee is applied for illustrative purposes and may not reflect the actual fees paid by any specific investor. Actual fees may vary based on account size, custodial arrangements, and other factors. ⁴Assumes reinvestment of capital gains, dividends and interest.

Risks: A high allocation to equities increases sensitivity to market volatility. Equity securities of smaller and medium-sized companies have greater price volatility and less liquidity than larger companies. Securities may be affected by company performance and market conditions.

Holdings and characteristics information is based on a representative, discretionary, unconstrained account that we believe is reflective of the overall strategy. While this account is selected to illustrate typical portfolio characteristics, holdings in other individual accounts may differ due to factors such as account-specific restrictions, timing of investments, and cash flows. Attribution is based on the gross returns of the representative account vs the composite benchmark and is calculated without the deduction of fees and expenses. The strategy was not available in a separately managed account as of Dec. 31, 2025.

For model-delivered SMAs: The implementation of any model portfolio is at the discretion of the managed account sponsor. Thrivent model portfolio information is for use by third-party advisers managing their clients' accounts. Thrivent Asset Management, LLC ("TAM") will trade in a discretionary representative account before model updates are made available to the sponsor. Under TAM's trade sequencing policy, trade instructions may be delivered after activity completes in the representative account, with timing dependent on the significance of the change. The sponsor retains full discretion over whether and when to implement trades in client accounts. For additional information regarding use of TAM model portfolios, review TAM's Form ADV – Part 2 Brochure.

Portfolio adjustments may result in taxable events for taxable accounts. In addition, short-term trading fees may apply to certain transactions. Thrivent Asset Management, LLC does not provide accounting, legal or tax advice. Please consult a tax or legal advisor.
