

Average Annualized Returns

This report shows performance as of the most recent month- and quarter-end for Thrivent Variable Portfolios.

All returns greater than one year are annualized; returns for periods of less than one year are not annualized.

Thrivent Variable Portfolios are only available to the public through a variable life insurance or variable annuity product. Performance data shown does not include any insurance or annuity charges, such as monthly or annual administrative charges, rider or additional benefits charges, cost of optional living or death benefits, percentage of premium charge, per unit charge, surrender charges, or cost of insurance charges, which if included would lower the returns. At various times, the adviser of Thrivent Variable Portfolios waived or reimbursed certain Portfolio expenses. Had the adviser not done so, the total returns would be lower. Contact the applicable insurance company for more information and a contract prospectus which will include information on the additional charges and fees that apply to the specific contract.

Since fees and charges vary from individual to individual at the contract level, contact your financial professional for a personalized illustration to determine what additional fees and charges you may incur. You can also review the hypothetical illustrations in the prospectus to see the effects of fees and charges on performance.

Thrivent Money Market Portfolio Yield: 7-Day Current Yield is the yield generated by an investment in the Portfolio over a 7-day period ended on the date of the calculation and expressed as an annual percentage. 7-Day Effective Yield is calculated similarly to the 7-day current yield, except that the effective yield assumes that income earned from the Portfolio's investments is reinvested and generating additional income. It is expressed as an annual percentage. The yield quotation more closely reflects the current earnings of the Thrivent Money Market Portfolio than the total return quotation.

Thrivent Money Market Portfolio: You could lose money by investing in the Portfolio. Although the Portfolio seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. An investment in the Portfolio is not a bank account and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Portfolio's sponsor is not required to reimburse the Portfolio for losses, and you should not expect that the sponsor will provide financial support to the Portfolio at any time, including during periods of market stress.

All data represents past performance. Past performance does not guarantee future results. The investment return and principal value of the investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than the performance data quoted. Variable insurance contract holders can visit thrivent.com or call 800-847-4836 for performance results current to the most recent month-end. Financial professionals can visit thriventportfolios.com for performance results current to the most recent month-end.

Before investing, investors should consider carefully the investment objectives, risks, charges and expenses of a portfolio and the variable insurance product. This and other important information is contained in the portfolio and variable insurance product prospectuses, which may be obtained from a financial professional or by contacting the applicable insurance company. Read them carefully before investing.

Thrivent Distributors, LLC, a registered broker-dealer and member FINRA, is the distributor for Thrivent Variable Portfolios. Thrivent, an SEC-registered investment adviser, provides asset management services. Thrivent Distributors, LLC is a subsidiary of Thrivent, the marketing name for Thrivent Financial for Lutherans.

Thrivent Money Market 7-Day Current Yield: 3.36 Thrivent Money Market 7-Day Effective Yield: 3.42

The current yield quotation more closely reflects the current earnings of the money market fund than the total return quotation.

Important notes are included on page 1 of this document

¹ Thrivent, the investment adviser for Thrivent Variable Portfolios, has contractually agreed, for as long as the current fee structure is in place, to waive certain investment advisory fees associated with the Portfolio. If not waived, returns would have been lower. Refer to the Fees & Expenses table in the prospectus.

² Thrivent, the investment adviser for Thrivent Variable Portfolios, has contractually agreed, for a period of one year from the date of the most recent prospectus, to waive certain fees and/or reimburse certain expenses associated with the Portfolio. If not waived, returns would have been lower. Refer to the Fees & Expenses table in the prospectus.

³ Effective April 30, 2025, the Portfolio transitioned from a fundamental to a fully quantitative strategy. Performance prior to that date reflects the previous strategy, which may not be representative of the current investment approach.

⁴ Effective August 28, 2017, Thrivent Government Bond portfolio adopted its current name and investment strategy. Refer to the prospectus for more information.
