

With the S&P 500 up significantly from its March 23 low, are there still opportunities within the market?

Thrivent Asset Management thinks so. Despite the rally, most sectors of the market are still negative through the end of June.

Now may be a good time to add exposure to the areas of the market that have not bounced back like other areas have. Here are two funds that may help your clients with more aggressive risk tolerances to gain access as the market rotates.

🔗 **Thrivent Mid Cap Stock Fund (TMSIX)** as of 6/30/2020

- Outperformed S&P Midcap 400 Index over the YTD, 1, 3, 5 and 10-year time periods
- Top 1% of Morningstar mid-cap core funds (1 of 225) for the 15-year time period
- Mid-cap core fund overweight in financials and industrials compared to its Morningstar peers

🔗 **Thrivent Small Cap Stock Fund (TSCSX)** as of 6/30/2020

- Outperformed S&P SmallCap 600 Index over the YTD, 1, 3, and 5-year time periods
- Top 3% of Morningstar small-cap core peers (14 of 536) since lead portfolio manager, Matt Finn, took over the Fund in April 2013
- Small-cap core fund overweight in financials and industrials compared to its Morningstar peers

Investing in a mutual fund involves risks, including the possible loss of principal. The prospectus and summary prospectus contain more complete information on the investment objectives, risks, charges and expenses of the funds, which investors should read and consider carefully before investing. Prospectuses are available at thriventfunds.com or by calling 800-521-5308.

All data represents past performance. Past performance does not guarantee future results. The investment return and principal value of the investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than the performance data quoted. Call 800-847-4836 or visit thriventfunds.com for performance results current to the most recent month-end.
